Job Description
<p>ROLE AND RESPONSIBILITIES</p> <p>As a Landscape Pest Control Specialist at VaceTime, you will be responsible for identifying, managing, and preventing pest infestations in outdoor spaces and landscapes. You will play a critical role in ensuring the health and vitality of plants while adhering to safe and environmentally responsible pest control practices.</p> <p>Pest Identification:</p> <ul style="list-style-type: none"> • Inspect landscapes to identify pests, including insects, rodents, fungi, and diseases. • Determine the extent and severity of infestations. <p>Treatment Planning:</p> <ul style="list-style-type: none"> • Develop customized pest management plans based on pest species, plant types, and environmental conditions. • Select appropriate pest control methods, including chemical and non-chemical options. <p>Pest Control Application:</p> <ul style="list-style-type: none"> • Apply pesticides, insecticides, and fungicides as necessary to control and eradicate pests. • Ensure safe and precise application according to manufacturer guidelines and regulatory requirements. <p>Integrated Pest Management (IPM):</p> <ul style="list-style-type: none"> • Implement IPM strategies, including monitoring, prevention, and cultural practices, to minimize pesticide use. • Promote environmentally responsible and sustainable pest control practices. <p>Record Keeping:</p> <ul style="list-style-type: none"> • Maintain detailed records of pest control activities, including treatment dates, chemical usage, and results. • Prepare reports for clients and regulatory agencies as required. <p>Client Communication:</p> <ul style="list-style-type: none"> • Communicate with clients to explain pest control recommendations and obtain approvals. • Address client inquiries and provide pest-related education. <p>Safety Compliance:</p> <ul style="list-style-type: none"> • Follow safety protocols, use appropriate personal protective equipment (PPE), and ensure safe handling of chemicals. • Stay updated on pesticide regulations and certifications.

Team Collaboration:

- Collaborate with landscape maintenance teams to integrate pest control activities into overall landscape care plans.
- Provide training and guidance to team members on pest management practices.

QUALIFICATIONS AND EDUCATION REQUIREMENTS / PREFERRED

- Certification or licensure in pesticide application and pest control, as required by local regulations.
- Proven experience in landscape pest control or a related field.
- Strong knowledge of common pests, their life cycles, and control methods.
- Familiarity with pesticide labels, safety data sheets (SDS), and application equipment.
- Effective problem-solving and decision-making skills.
- Excellent communication and customer service skills.
- Physical fitness and the ability to work outdoors in various weather conditions.
- Commitment to environmentally responsible pest control practices.
