
VACETIME

Save Time Use VaceTime

Project Description:

Private and city funded project. The client needed us for plant native shrubs and apply mulch. We took safety precautions clearing the leaves and debris. For Eco-friendly purposes we relocated the leaves along the trail. We

marked off the 200+ holes to ensure good spacing for rooting and growth for the shrubs. On the hills we dug holes in bowl shape to ensure proper depth and to prevent sliding in heavy rain situations. We selected and installed the native shrubs in a way that complimented the bridge and nature with a wave like pattern once in full bloom.
